MANUFACTURED ONLY BY THE

ST. LOUIS STAMPING CO., ST. LOUIS, MO.

HIGHEST AWARD,

CENTENNIAL,

1876.

GRAND GOLD MEDAL

PARIS,

1878.

HAS BEEN SOLD FOR THE LAST FOUR YEARS

To a very large extent, and the Ware has been used with great delight and benefit by many thousands in the United States, and some in foreign countries. Wherever the Ware has been adopted large demands have been created on the approval and recommendation it received from those using it; and where any of the Ware found its way into a family it soon took the place of all other utensils.

The mottling or ornamentation in the Granite Ware is created by an infusion into the glaze of a large quantity of iron oxide, which adds greatly to the durability of the Ware, and also makes it pleasing to the eye.

The ware does not rust, and is easily kept clean.
